MARKING of STRUCTURAL TIMBER

SANS 1783.

The Standard is clear on the requirements for the marking of structural timber including Brandering and Battens.

We experience a lot of trouble with fading of timber markings especially after WCCA treatment, so much so that we have to verify timber grades at a number of building sites, especially along the coastal areas where the preservative treatment of structural timber is regulated by legislation. We can not afford to loose traceability by the use of an inferior ink or poor marking. From feed back and based on own experience we are of the opinion that the following suppliers' products meet the expectations.

- A) CONTINENTAL PRINTING INK
Johannesburg
011 622 2818/19/20/21/26
Brenda or Debbie
Cape Town
021 511 8739

Product reference:
WFLEX Wood stamp Batch No 1888581WT
BLACK 4041/1
RED 4042/1
BLUE 4043/1

- B) J & L SUPPLIES
KZN
James Anthony 031 502 3335
083 611 2064
Koshik singh 033 387 4792
084 549 1767

If there are any other suppliers who meet the requirements, please share the contact details with the rest of the industry

MERK VAN KONSTRUKSIE HOUT

SANS 1783

Die Standaard is duidelik rondom die vereistes vir die merk van konstruksie hout ingesluit Plafon en strooklatte.

Ons ondervind heelwat probleme met die vervaag van merke veral na WCCA behandeling, tot so 'n mate dat ons soms die gradering op boupersede moet verifieer. Veral langs die kus areas waar die behandeling van hout deur wetgewing reguleer word Ons kan nie bekostig om terugspoorbaarheid te verloor agv swak merking of ink nie. Uit terugvoering en eie ondervinding is ons van mening dat die volgende voorsieners se produkte aan die verwagtinge voldoen.

- A) CONTINENTAL PRINTING INK
Johannesburg
011 622 2818/19/20/21/26
Brenda or Debbie
Cape Town
021 511 8739
