

Dear SATAS Clients,

SATAS has just received good news and we would like to share it with you, our esteemed client.

We received confirmation from SANAS this morning that our recent suspension has been re-instated to full Accreditation status. SATAS is now once again permitted to apply SANAS Accredited Certification to new Product Certificates for those product standards detailed in our Scope of Accreditation.

The suspension was a valuable experience that ensured all our staff participated in effecting the necessary corrective actions and to actively maintain the high level of compliancy we always strive for.

It underwrites the value of non-conformances as we experience the same experience our clients are subjected to when deviations are identified and raised as nonconformances.

We see non-conformances as fine-tuning quality management systems to assist in continual improvement.

Thank you for your loyal support. We appreciate your trust in the certification of your product with SATAS.

A handwritten signature in black ink, appearing to read "M. M. M.", is positioned above the printed name "SATAS".

SATAS

29 August 2024

Geagte SATAS Kliente,

SATAS het so pas goeie nuus ontvang en ons deel dit graag met u, ons geagte kliënt.

Ons het vanoggend n'brief ontvang van SANAS waarin die onlangse opskorting opgehef is, en dat SATAS weer toestemming het om die SANAS logo op ons SATAS sertifikate aan te bring volgens die omvang van ons SANAS akkreditasie.

Die opskorting was n' waardevolle les vir die personeel van SATAS.

Dit onderskryf die waarde van nie-nakominge wat ons ondervind het, soos ook dieselfde ondervind word deur u, ons kliënt, wanneer SATAS n' nie-nakoming aan u uitmaak..

Ons sien nie-nakominge as n'fyn instel van kwaliteit sisteme.

Dankie vir u ondersteuning. Ons waardeer u vertroue in ons vir die sertifisering van u produk.
