

Dear SATAS Clients,

SATAS has just had a very thorough audit from SANAS on 17 and 18 April 2024.

The findings in the SATAS Quality System were not favorable for SATAS and the non-conformances led to a three-month suspension of the SANAS accreditation of SATAS.

The suspension does not affect the current SATAS permits.

New SATAS permits can still be issued without the reference to SANAS. This will apply till the suspension is lifted.

The SATAS quality team is burning the midnight oil to clear the non-conformances and we hope that SATAS will be ready for a re-assessment sooner than the three-month period.

Thank you for your loyal support. We appreciate your trust in certification of your product with us.

Geagte SATAS Klente,

SATAS het n' baie deeglike oudit van SANAS ondergaan op 17 en 18 April 2024.

Die bevindinge in die SATAS Kwaliteits Sisteem was nie in SATAS se guns nie en die nie-nakoming het gelei tot 'n drie maande opskorting van die SANAS akkreditasie van SATAS.

Die opskorting affekteer nie die bestaande SATAS permitte nie.

Nuwe SATAS permitte kan steeds uitgereik word sonder enige verwysing na SANAS. Dit is van toepassing totdat die opskorting opgehef is.

Die SATAS kwaliteit span is tans besig om die middernagtelike olie te brand om die bevindinge reg te stel en ons beoog om die tekortkominge reg te stel nog voordat die drie maande verstreke is.

Dankie vir u ondersteuning. Ons waardeer u vertoue in ons vir die sertifisering van u produk.
