

Dear SATAS Clients,

We at SATAS wish you a very prosperous 2024.

We have celebrated our 21 st year of existence last year.

Thank you for your loyal support. We appreciate your trust in certification of your product with us.

2023 saw some changes in our company with the following events:

Abe Stears took retirement from day-to-day SATAS activities at the end of February.

Our Financial Officer Tracey Goodall left our company to pursue her career elsewhere.

Tanya Swart joined SATAS as Financial Officer.

Tamsen Annendale left our company to pursue her career elsewhere.

Elija Mtisi joined our company as Timber Auditor.

Nicholas Du Preez will be trained to audit in the Plastics certification field.

We changed the presentation of the face of our Certification Permit and are busy replacing the all the previous permits with the new face permit. This is done in stages and we hope to finish that by mid-2024.

Despite all the changes, our motto remains the same: Honesty, Reliability, Integrity.

We therefor strive to constantly improve our services to ensure that the National Standards and ISO Standards are maintained throughout National and International certification that we are called for and to serve.
